

# DIVINE PEACE ON EARTH - TIME FOR ONENESS

CHANNELED BY CECILIA SIFONTES

PUBLISHED IN GERMAN MAGAZINE LICHTFOKUS #544EF

During the upcoming years light workers will have the possibility to make a new choice that can affect the entire planet and the outcome of the Divine Plan for existence.

The choice we refer to is the one of stability. You as lightworkers can greatly affect the transformation you are in so that it will be in a harmonious and joyful way.

Lately you have witnessed much transformative chaos on your planet that serves no greater purpose, but is simply an effect of unstable energies rejecting divinity. It is time to end suffering by making new choices. We call upon all of you to do so.

## Why is it so important at this time?

The choices you make at this time have a greater influence than before because of all the crystalline light that is flowing into the Earth. If you have started to awaken your light, i.e. by working with energies or meditating on light, the crystalline light will come to affect you more than others and strengthen your visions and focus. You as humanity are standing in the middle of a choice that will affect the outcome of planet Earth and how you will relate to each other on the planet.

The potential is great and we are now calling all of you to take another step and begin to work more actively with the Earth Grid by anchoring Divine Peace and Oneness.

## What causes conflicts?

Different things in different layers of reality cause the outer conflicts in your world. When looking at the surface you can find 3 main symptomatic reasons for conflicts.

1. Humans fighting over natural resources such as fertile land, water, land with other valuable assets such as oil, etc.
2. Religious conflicts, often originally caused by reasons given in point 1 and then projected to the different cultures or people of a certain religion who happened to be living in that area.
3. Power struggles based on the fear of not being able to control the outer world or fear of not belonging in the greater whole.

## What can you do about the symptomatic reasons?

You are automatically increasing your power to affect the world by actively working with light and energies. Your visions become stronger and your light reaches further. Therefore, everyone can help to change the energies in the Earth grid by making inner changes. You will lighten up the energies in the Earth grid when you change yourself and your reflections of the reasons above.

So look at yourself, call for your soul and ask it to show you 3 things you can change in your life that would serve to change the energies in the Earth grid.

1. In what way are you not willing to share with others, in which area of your life do you feel a need to hold back? This could be love, possessions, time, energy or something else. From your personality level you may believe in scarcity and that you must hold back to have enough. From your soul's perspective you are living in an abundant universe and the more you give, the more you are given to give and the more you will receive.

So ask your soul to connect you to the never-ending source of energy in existence and fill yourself with this energy. Then ask yourself how you could act differently in this situation when you are open for abundance.

2. In what situations do you have a problem with others because of their belief system? Are you intolerant when people have certain ideas that you do not agree with? From the personality level it may seem impossible to interact with others when they have completely opposite ideas of what is right or wrong. From the soul perspective of Divine Peace it is clear that everyone has their individual way of expressing divinity and all of them serve the same goal – to return to the Source.

Ask your soul to guide you to act in new ways from your authentic power, authentic love, respecting the divinity in others. Everyone, is Divine, without exception, and when you see it you will also create it in the world.

3. In what way are you inclined towards power struggle? In which situations do you want to put others in their place and show them that you know best? How could you act differently in these situations by changing your thoughts, emotions or actions to more loving ones? From your personality level you may believe in the illusion of right and wrong. From your soul's level only the Divine Truth exists and truth can never be expressed in words. It is an energy space of perfection that you can only experience in deep meditation.

Relax and ask your Soul to open the layer of Truth for you so that you can get a sense of it.

In reality all of us are One and the greater part of us exists in Oneness. The state of Oneness can often be experienced during mediation. It seems however to be more difficult to live Oneness in your normal daily life on Earth. And it is difficult to do it 100% due to the separation of normal light and reversed and inverted light.

Because of the separation in existence, you cannot achieve true Oneness by only changing your ideas, emotions and actions or by having the intent to live Oneness. Still we highly recommend that you do so, because it helps to change much energy in the Earth grid and your life will certainly improve when you strive to live as One with others.

The creators of light who start to awaken on the Earth plane will achieve Oneness. They will create the energies of Oneness from within the Earth plane at the same time as they invert and reverse the light in the Earth grid. When this has been achieved there is a potential to completely bring reality back to One and ascension can take place.

Of course this requires a great skill in creation techniques and a knowingness of how to do it. You may be one of these creators and if so, we call you to awaken. The Earth plane will change when the lightworkers remember who they are and what they came here to do.

We, the guides, will not do it because we cannot do it alone. You, the lightworkers, came to the Earth in a physical body because you have a mission to fulfill.

You may have noticed that certain areas of the world have more conflicts than other areas. Many attempts are made to achieve lasting peace in these areas, but after awhile conflicts arise again. Does this mean that people living in these areas do not want peace? No, they would all love peace, but they cannot achieve it because there are some structures in the Earth grid that repel divinity and create a distorted energy in the areas of frequent conflicts.

When lightworkers awaken and remember their missions then many of you will bring the pure light of the Source into the repelling structures. Thereby the structures will neutralize so that Divinity can anchor harmoniously all over the world.

The transformative chaos that you see in the world can be altered by changing the Earth grid in the ways we have mentioned above. We call you to take the next step in your awakening process and join us in the mission "Divine Peace and Oneness" by listening to your soul's inspiration, changing your illusionary ways, developing stability and becoming the creator that you are

*"Dear one, We are the Higher Commands of Light.*

*For some years we have been working intensely to support the Earth to anchor the divine states of being. We have for instance worked with many lightworkers to establish the state of divine peace by connecting them to the Source, building a web of divine peace for the planet Earth, connecting to the Libraries of Light on the Earth to send out the key of Divine Peace into the world and by initiating the work to neutralize the seven structures in this world that repel Divine Energies.*

*We are in charge of a giant project called Divine Peace and we are now calling all lightworkers to awaken to your part in this project. It is time that you and others take a more active part in the building of Divine Peace around this Earth. Divine Peace is part of the ascension project and it involves every living being on the Earth.*

*There is a vast amount of crystalline light entering the planet Earth now and this will continue into the future – and this light will be a call for humanity to awaken to themselves, to spirit and to divinity.*

*The crystalline light is very powerful and extremely transforming in its nature. And thus there will be a great need for a stable space for humanity and the Earth so that the transformation into divinity and a higher way of being, will occur in a harmonious and joyful way, rather than a chaotic, upsetting change.*

*We will work intensely to establish a stable space for divine peace – for you, for humanity and for the world – so that you and others can begin to understand more about the divine layers of reality and what creation is all about in a stable and joyful way – without distortion, disharmony and conflicts.*

*Everyone – every single human being has the potential to reach enlightenment in this lifetime – the potential is always there and has always been there, in you and in others. In your heart there is a longing for more peace, more openness, more freedom, to simply be the divine creator that you are in your life on the Earth.*

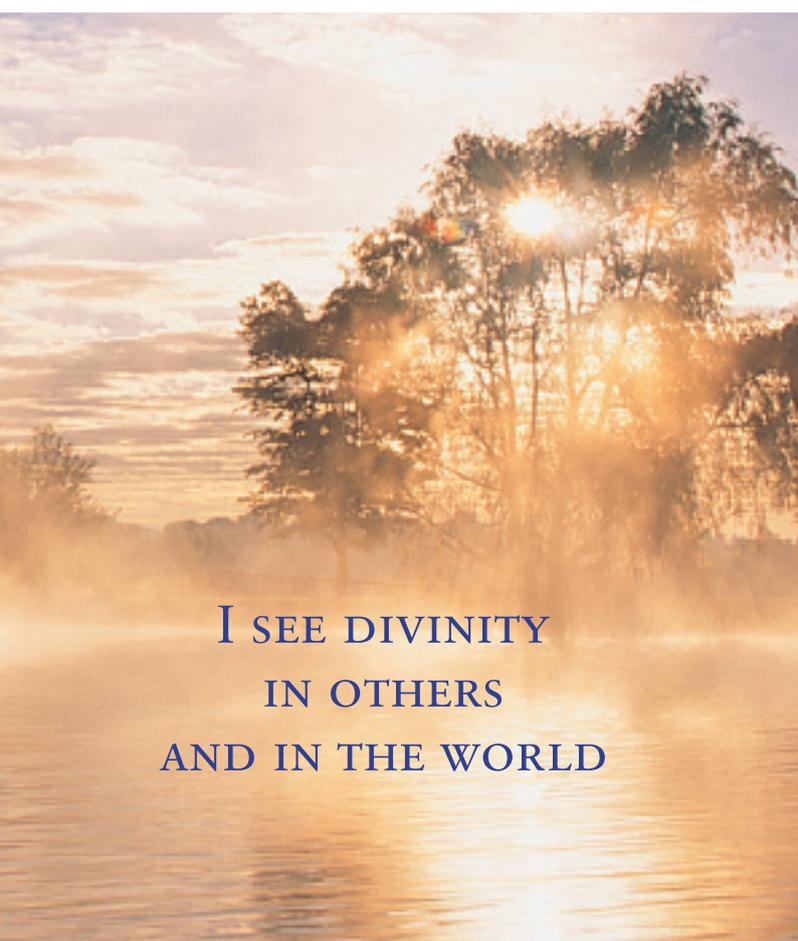

*This longing is there in everyone – in the heart of every human being there is a driving force urging each one to move towards more peace, more joy more harmony, more love. As these crystalline waves enter the Earth plane, this driving force will become stronger and more evident for most people.*

*It is important that the energies around the Earth and around humanity are stable so that these crystalline waves can move into the inner-grid of the Earth in a stable way. Creating harmony, offering a new way of being where understanding, wisdom and love rule the planet and everyone has access to the divine states of being – finding the joy to live together in harmony.*

*As you view the Earth today this vision may seem far off – maybe you see conflicts and power struggles in many places, however as far as we can see it there are only slight shifts needed in you and others to create a lasting change towards more harmony, understanding and love.*

*You are important as one who lives the example, as one who sees the divinity in others and in the world. This is what is most greatly needed now – people who see beyond the illusions of fear, into the truth, into divinity. People who see what is really there – divinity in everyone – and that in their hearts everyone has the driving force to live in harmony and fairness and everyone has the longing to live together with others in love and peace, connected to their Source, knowing who they are, living as one. There is not one human in this world who does not want that, in their hearts everyone is striving towards peace and a greater understanding of the purpose of life.*

I SEE DIVINITY  
IN OTHERS  
AND IN THE WORLD

## THERE IS NO EVIL IN THE CREATION OF THE SOURCE

*It is when they are confused, when they believe in the illusions of fear that power struggles occur. When someone has been treated unfairly they may want revenge, because in their confusion they believe that this will create a greater balance. Still, there is no human, not one single human who is born evil. No one is born with a wish to harm others.*

*In the creation of the Source there is no evil. Evil as such does not exist, so why do you see it on the Earth plane? Simply because you live within the illusionary reality where your belief systems are based on fear rather than love or divinity. From that perspective you may believe that evil exists, and when you believe it, you also create the illusion of evil. So although evil does not exist, humanity as a whole loves and lives the idea that it does, and because they believe it, they create it as their reality.*

*Every human is a creator and everyone is connected to the Source, comes from the same origin, made from the same divine essence and all of you are creators and you will always be. Whatever image you place your awareness on will be created as reality – for you or for humanity.*

*It is much easier to create that which is real; love, light and consciousness, than to create illusions. So the more you bring your focus to the divine states, the easier the illusions of fear will simply melt away.*

*If you want to find peace in this world, begin to look for it and when you see it – you will create it. You will create not it by solving conflicts, but by finding divinity and creating more of it. By living divinity – living the example.*

*Divine peace is so much more than the absence of conflicts or power struggles; it is a beautiful state of being where you are totally connected to the Source. Where you know who, why, where and what you are, where you live your highest purpose and experience that peace of purpose when you do. It is a state of total fulfillment and complete bliss.*

*Our intent is to create a stable space of divine peace for you as an individual, for humanity and for every single fraction of physical matter in existence.*

*If you like, we will work to align you with those incoming waves of crystalline light so that you can move with the flow of these powerful energies, rather than be shaken by their transformative power. We will also align all of humanity with these crystalline waves through you.*

### **Exercise to create a stable space of Divine Peace:**

*Begin to relax yourself, put your body in a comfortable position, you can be sitting, lying or standing – it does not matter, what matters is that you are comfortable, open and at peace.*

*Relax yourself, breathing in deeply and lightly – and as you do you move your awareness to your own light, the light within the cells in your body, the light of your energy that is surrounding the body and the light in your lightbody.*

*In your inner-mind you follow this light, with your awareness and as you do you notice how more is emerging. Divinity, the divine essence, is always responding to awareness – so whenever you place your awareness on the divine essence – on light, love and consciousness then more emerges just by itself.*

*To find more love in your life all you need do is to place your awareness on the love that is there and more will emerge.*

*We the Higher Commands of Light will now transmit some beautiful energies to you. Open yourself and follow these waves of light and energy while we transmit to you to open you even more for peace, for divinity – for yourself.*

*Place your awareness at the thymus in the chest where you have your center of divine peace, a beautiful web of light with a crystalline structure in the center.*

*Be aware of how you have a channel of light along the spine that is descending into the Earth and extending upwards into the divine layers of reality.*

*Look at the picture. From the front of the body the structure appear as three rhombs of light from a point in the upper brain to the ears – into the thymus to the lower ribs at the side of the body, into the solar plexus, to the side of the hip bone and into the pelvic floor.*

*When you bring in energies through this structure it will indeed shift your energy to a more open, stable space of divinity..*

*We will work with it now, as a way to open your body and the body of the Earth for a more stable space where the divine states of being can open in harmony, ease, flow and joy – rather than in transformative chaos.*

*Be aware of your center of divine peace in the thymus. Imagine that you expand that web of divine peace so that it surrounds you like a giant sphere of divinity. And we will transmit to you together with the star of divine peace, a beautiful being that is holding this state of divine peace for the world.*

*Open to receive this transmission. Notice how the structure for a stable space of divine peace begins to move in a rhythmic movement when the light we transmit enters your web and touches the structure. This opens the cells in your body for the state of divine peace in a stable space.*

*Continue to relax and let your cells open for this beautiful state of divinity while we transmit to you for a few minutes.*

*Gently let go of the transmission, let your center of divine peace move back into the thymus. Notice if there is a sense of more stability and divinity”*

*P.S. Join us in the Friday evening stability meditation. Each Friday 20.00 – 21.00 CET, we transmit boosts of stability to everyone who tunes in. Simply relax, imagine that you connect to all others who meditate on stability and receive our transmission.*
